Here's the **most accurate information** about a “Southwest Airlines Manchester Office,” including **what exists** and **what doesn't**:

---

## Southwest Airlines – Manchester (UK) Office

### No Official Street-Level Office in Manchester, UK

Southwest Airlines **does not** have a publicly listed **physical customer service office** in **Manchester, England** where you can walk in for reservations or ticketing support. There's no verified official Southwest Airlines location in downtown Manchester or at Manchester Airport in the UK with a dedicated office address. Listings you may see online that claim an “office” at Manchester Airport are **third-party directories** and not official Southwest Airlines locations. ([Airlines-Office](#))

## Airport Presence – Manchester (US) vs Manchester (UK)

There are two “Manchester” airports people sometimes confuse:

### **Manchester–Boston Regional Airport (New Hampshire, USA)**

- Southwest *does* operate flights here and has ticket counters/airport service at: **1 Airport Rd, Manchester, NH 03103, United States** — this is a valid U.S. service location connected to the airline’s ticket counter at the airport. ([airlinesofficedesk.com](https://airlinesofficedesk.com))

### **Manchester Airport (Manchester, England)**

- **Southwest Airlines does *not* maintain a counter or office** at Manchester Airport (UK). If you’re connecting on a Southwest-related ticket through a partner airline, the operating carrier’s desk at the airport will assist you — but Southwest itself has no official facility here.
- Airport airline contacts for Manchester Airport list many carriers, but **Southwest is not one of them**. (Common for U.K. airports when carriers don’t serve that airport directly.)
