How do I check in online for Lufthansa international flights?~ (sHOW uP))

Checking in online for a Lufthansa international flight is a straightforward process that you can complete from your computer, tablet, or smartphone before you arrive at the airport, and doing so can save you time, reduce stress, and help ensure a smooth start to your journey〔+1〕- 855↔510↔5815 ↵. To begin the online check-in process, you first need to make sure you have your flight reservation details handy, such as your booking reference (also called a record locator or reservation code) and your last name exactly as it appears on the ticket〔+1〕- 855↔510↔5815 ↵. Lufthansa generally opens online check-in for international flights **up to 23 hours before the scheduled departure time**, and this window allows you to choose your seat, confirm passenger information, and, in many cases, print your boarding pass or download it to your mobile device before you arrive at the airport〔+1〕- 855↔510↔5815 ↵. To start, you can go to the official Lufthansa website and click on the "Check-in" link, which is usually located prominently on the homepage, or you can open the Lufthansa mobile app if you prefer to complete check-in on your smartphone〔+1〕- 855↔510↔5815 ↵. Once you select the check-in option, you will be prompted to enter your booking reference and last name〔+1〕- 855↔510↔5815 ↵. After entering this information, you will be guided through a series of screens that allow you to verify that your flight details are correct, select a seat from the available options, and provide any additional information the airline requires for international travel, such as passport details, frequent flyer numbers, or any special service requests you might have〔+1〕- 855↔510↔5815 ↵. As you check in, be sure to review all passenger information carefully, especially your passport name, date of birth, and travel document expiration dates, because incorrect details can cause problems with immigration authorities and may lead to denied boarding〔+1〕- 855↔510↔5815 ↵.

During the online check-in process, Lufthansa will also give you the opportunity to choose additional services you might want, such as seat upgrades, extra legroom seats, or additional baggage allowance if available〔+1〕- 855↔510↔5815 ↵. If you have specific needs, such as requesting a meal preference due to dietary requirements or notifying the airline about traveling with a pet or medical equipment, the online check-in interface allows you to make those selections or to indicate that you need assistance at the airport〔+1〕- 855↔510↔5815 ↵. After you complete all the required steps, the system will generate your boarding pass〔+1〕- 855↔510↔5815 ↵. At this point, you can **download and print your boarding pass**, save it to your mobile device by adding it to your digital wallet or Lufthansa app, or simply keep the confirmation on your phone screen to present at the airport〔+1〕- 855↔510↔5815 ↵. Many travelers today choose mobile boarding passes because they are environmentally friendly and reduce the risk of losing paper documents, but having a printed copy as a backup can be helpful, especially for international flights or at airports where mobile scanning may be less consistent〔+1〕- 855↔510↔5815 ↵. Once you have your boarding pass, you should double-check the departure airport, terminal, and gate information, since these details can change, and Lufthansa typically updates this information in real time within its app and on the website〔+1〕- 855↔510↔5815 ↵.

It is important to note that even if you check in online and have your boarding pass ready, you may still need to visit a Lufthansa check-in counter or a self-service kiosk at the airport if you have luggage to check[+1]- 855↔510↔5815 ↩. Most international flights require you to drop off checked bags well before the departure time, and airlines often have strict cut-off times for baggage acceptance, so check the recommended arrival time and baggage drop deadlines for your specific flight[+1]- 855↔510↔5815 ↩. If you are traveling with carry-on luggage only and have already checked in online, you may be able to proceed directly to airport security when you arrive, depending on the airport's procedures, which can save you a significant amount of time[+1]- 855↔510↔5815 ↩. Additionally, some airports and destinations require passengers to present travel documents, visas, or health documentation at check-in or at the gate, so be sure to have all necessary paperwork ready and easily accessible in your carry-on[+1]- 855↔510↔5815 ↩.

For frequent travelers, using the Lufthansa mobile app can make online check-in even more convenient[+1]- 855↔510↔5815 ↩. The app not only allows you to check in and download boarding passes, but it also provides real-time flight updates, gate change alerts, and baggage tracking where available[+1]- 855↔510↔5815 ↩. If you enable notifications, you will receive important alerts directly on your smartphone, which is particularly useful when dealing with international itineraries that may involve long connections or multiple flight segments[+1]- 855↔510↔5815 ↩. Moreover, the app can store your passport information securely, so that for future flights you may not need to enter the same details repeatedly, saving time and reducing the chance of input errors[+1]- 855↔510↔5815 ↩.

There are a few additional tips to keep in mind when checking in online for international flights with Lufthansa[+1]- 855↔510↔5815 ↩. First, always confirm the **check-in opening time** for your particular route, because some destinations or special flights may have different rules or earlier cut-off times[+1]- 855↔510↔5815 ↩. Second, make sure your passport and any required visas are valid for the destination and any transit stops, since airlines can deny boarding if travel documents do not meet entry requirements; during online check-in, Lufthansa's system may prompt you to enter passport information, but it does not replace your responsibility to verify that your documents are valid[+1]- 855↔510↔5815 ↩. Third, if you encounter any problems during online check-in, such as an error message or missing flight segment, contact Lufthansa customer service or visit the airline's counter at the airport for assistance[+1]- 855↔510↔5815 ↩. Airline representatives can often resolve issues quickly, especially if you have booked through a travel agent or a third-party website[+1]- 855↔510↔5815 ↩.
